2026

Nurturing **HOPE**. Empowering **CARE**

From the Desk of the **HOPE** family

Dear Colleagues,

Welcome to **HOPECON 2026**—the 5th Annual Comprehensive MedEduCare Conclave—your own **MediFest**, to be held from **8-11 October 2026** in **Kolkata – The City of Joy**.

What began as a dream has grown into a movement. Over the past four years, HOPECON has brought together **3,000+** eminent faculty members, **35+** healthcare fraternities, **10,000+** physical delegates, and more than one million healthcare professionals and learners through our digital initiatives. Every interaction has strengthened one belief—**when healthcare professionals learn together, society heals better**.

This year, **HOPECON** enters a new era.

Beyond four extraordinary conference days, we are launching a **365-day ecosystem** of learning, mentorship, research, innovation, leadership, public health awareness, and global collaboration through the Health Organization for Professional Excellence (HOPE) under the aegis of Kolkata Nurture Foundation (KNF).

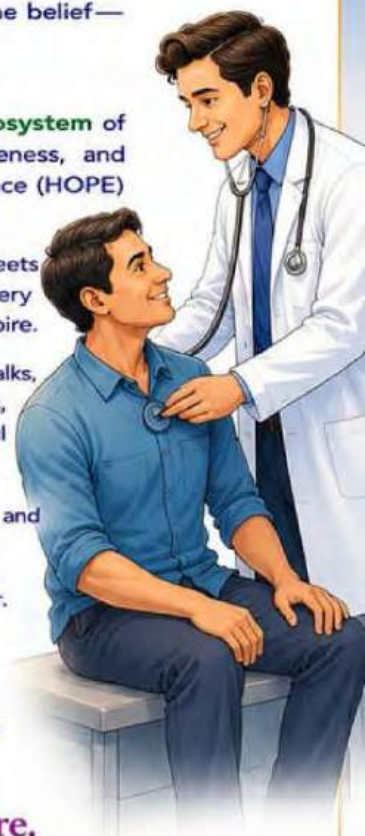

HOPECON'26 is not merely another conference. It is a platform where science meets experience, education meets innovation, technology embraces compassion, and every healthcare professional discovers new opportunities to learn, network, lead, and inspire.

Expect thought-provoking keynote lectures, recent advances, multidisciplinary cross-talks, hands-on workshops, medicolegal discussions, debates, entrepreneurship forums, research presentations, leadership initiatives, exciting competitions, and meaningful networking with some of the finest minds in healthcare.

Most importantly, HOPECON is built around **YOU**—your aspirations, your growth, and your commitment to making healthcare better for every patient.

Every edition has taught us something new. Every suggestion has made us stronger. Every participant has become a valued member of this united healthcare family. For your trust, encouragement, constructive feedback, and continued support, we remain sincerely grateful.

If you believe that healthcare deserves collaboration over competition, knowledge over misinformation, and compassion over boundaries, **this is your platform**.

Come. Learn. Lead. Collaborate. Inspire.

THEME

EVERY PATIENT IS A COMPLETE HUMAN BEING

Join thousands of healthcare professionals in shaping the future of **patient centric** comprehensive medicine—not only during four memorable days in October, but throughout an entire year of meaningful academic and professional engagement.
